

Harvester Series

Models: CT220TT, CT220PH, CT3200

If you are a custom harvester or equipment dealer delivering to your customers, you want mobility, durability and serviceability from your trailer. The Harvester series trailers are designed to transport a wide variety of makes and models of combines easily and quickly. The Model CT3200 has been specifically designed for equipment dealers to allow for the transporting of both combines and tractors, making this a versatile and economical trailer.

Model: CT220TT

Model: CT3200

Model: CT220PH

Transport Series

Models: SR6000, SR18000T, ST2000, DR21000

Loading and transporting your straight cut headers and swathers is now easy and simple. Whether traveling long distances or simply moving your equipment around the farm, these transports are built to last. The Model SR6000HT is designed for a single rigid header, the SR18000T has been designed to transport draper, flex, corn or pick up headers while the DR21000 is a hydraulic fold-up transport that can carry two headers. The Model ST2000 is a full carry swather transport.
